

THE STORIES WE TELL

فلسطين: بين الكلمات والصمت

**PALESTINE  
BETWEEN WORDS  
AND SILENCES**

APRIL 25 — JUNE 27

القصة التي نرويها

**The stories we tell matter. It matters how we craft them and what they say and don't say about others and ourselves. In this hour of genocide, as we bear witness to unspeakable horror and the stifling censorship of educational, cultural and political institutions, we foreground Palestinian worlds to nourish learning and cultivate hope. Bringing together a set of exceptional scholars, artists and activists, this program invites us to confront what we cannot longer unsee and to listen to what has been muzzled. Through conversations, poetry, music, and films we aim to unsettle all-too-predictable story lines by repositioning words and silences as historical agents of complex and ongoing transformations.**
